

## TIBURON

*Park-like level grounds, commanding panoramic views and sprawling interiors define this estate at the top of Tiburon. Custom built and carefully sited, every detail in this approximately 6,755 sq. ft. estate has been considered. Views abound from nearly every room, including jaw-dropping vistas of the San Francisco skyline, the Golden Gate Bridge, Richardson Bay and Mount Tamalpais. The home is entered through a dramatic grand foyer and is divided into two expansive wings. The south wing features the estate's formal dining and entertaining areas, a massive gourmet kitchen, a library, and five terraces and balconies approached through French doors. The north wing evokes privacy with four bedrooms, two bathrooms, and a master suite of resort proportions. An expansive level lawn, entertaining terrace, motor court and lower level with home gym/media room complete this mountain top masterpiece.*
